Cove Light AC HO Graze

Superiorly bright. Extremely efficient. Narrow beams of high-quality light.

Cove Light AC HO Graze is a superiorly bright, extremely efficient and cost effective solution for wall grazing, accent lighting and indirect illumination for interior architectural, retail, hospitality and residential applications. With superior fine binning, every fixture provides high-quality and ultra consistency of linear light. Its compact design allows installation in narrow spaces. Various narrow beam options and 180° (+/- 90°) rotation axis in 10° increment allow flexible and precise aiming. Simple Plug'n'Play cabling and connection makes installation quick and easy and minimize maintenance cost.

FLEXIBILITY Highly efficient LEDs with various narrow beam options in dedicated color temperatures ranging from 2700K to 4000K. 180° (+/- 90°) rotation axis in 10° increment allows flexible and precise aiming.

SIMPLICITY AC line voltage eliminates the need for external power supplies and enables a daisy-chain topology with extended run lengths up to 50 feet (120V), 100 feet (220V) or up to 135 feet (277V) per power run.

INNOVATION Light output of 656-744 lumens per foot and a minimum efficacy of 60 lm/W (2700K) or 68 lm/W for (4000K). Fixtures offer wide 5% - 100% dimming range without flickering.
